

Facemask

About this appliance:

- Only works on growing patients
- It is used to reduce the severity of an under bite
- Pads rest on the chin and forehead, and rubber bands connect the facemask to your expander
- Work your way up to the strongest rubber bands as quickly as possible.

For best results:

- Make sure you wear your face mask as instructed to. It only works when you wear it!
- Follow our instructions for wearing your face mask to finish this part of treatment as quickly as possible with best results.
- Wear 10-12 hours per day to achieve results.
- Always be careful and remove your facemask as you were taught to avoid injuries to your cheeks, lips, face, and eyes.
- Be careful to prevent anyone from grabbing or pulling your facemask.
- Bring your facemask to every appointment.
- Call with any questions or concerns (616) 698-2323.
